# Who we are

## Factsheet

*LEONARDO – Center for Creativity and Innovation* is a cooperation between:

- Nuremberg Institute for Technology
- Nuremberg University of Music
- Academy of Fine Arts Nuremberg

We are part of the federal funding measure *Innovative Hochschule* by the *Federal Ministry of Education and Research*.

We are a diverse team of 23 people from a wide array of backgrounds, fields of study and disciplines: *Sociology, Arts, Economics, Natural sciences, and many more*

# What we do

## Factsheet

From idea to innovation: we create impulses for the generation of ideas and we offer services that allow university members and external partners to develop meaningful and unconventional projects.

We work interdisciplinarily, experimentally, transparently and practically oriented.

The responsibility for society as a whole, technological progress, economy, ecology and artistic creativity are at the forefront of our work.

In a nutshell:

We provide infrastructure and tools for you to create, develop and realize innovative ideas.

# What we offer

# What we offer

## Infrastructure

We are situated in the heart of Nuremberg. In our rooms you'll find workspaces, presentation areas and a wide array of different labs & makerspaces.

We offer:

- Prototyping Makerspace with 3D-Printers, CNC-Milling, etc.
- Workshop with workbenches, tools and instruments
- Music Lab
- AR-VR-Lab
- Co-Working Space
- team of experts

# What we offer

## Project support & funding

- *You have come up with an amazing idea but you have got no one to share it with?*  
We help you to get in touch with the right people – be it other students, professors or experts.
- Students are able to apply for support and financial funding – so you can turn your idea into an innovation. Applications can be submitted at all times.
- Additionally, there are subject-related calls and competitions you can take part in.
