

NL GRONING03

Dear partner,

Warm greeting from Groningen, the Netherlands!

The Institute of Engineering at Hanze University of Applied Sciences Groningen offers
5 English-taught exchange programmes (30 ECTS) in the spring semester 2019:

- * Biomedical Engineering (**NEW**)
- * Electronic Product Design and Engineering
- * Energy & Society
- * International Industrial Entrepreneurship
- * Sensor System Engineering

The programmes have different entry requirements. Some of the programmes are real 'specialist' programmes, others are 'broader' or multidisciplinary. Some of the programmes are not only for engineering students! 'Energy & Society' and 'International Industrial Entrepreneurship' can also be followed by students from e.g. business, marketing or management studies.

The course outlines, entry requirements and practical information are available on our website: <https://www.hanze.nl/eng/education/engineering/school-of-engineering>
